

IGT Mobile Data Access[®]

Systems

Real-time data that moves with you.

ACCESS MISSION-CRITICAL INFORMATION WHEN AND WHERE YOU WANT.

Set your casino floor data free. *Mobile Data Access*[®] keeps you in control 24/7 by giving you the power to access your real-time player, machine and operational information anywhere an Internet connection is available. *Mobile Data Access* continuously collects data directly from your casino floor, stores it in a database and presents it to you for immediate review using enhanced graphics.

Hourly coin-in, win, headcount, total game count, games in play, carded and uncarded players, hot players, tilt events and important security notifications are now available on your desktop, on the floor using wireless handhelds, or even at home via the Web. Benchmark current performance against any previous date – down to the hour – and make effective business decisions that increase your bottom line.

BENEFITS
