

## Table ready.

### EASILY MANAGE YOUR TABLE OPERATIONS.

Casino operators around the world have discovered the profit-boosting potential of automated table tracking with IGT *Tablelink*®. From modernizing inefficient, manual recordkeeping and transaction processing, to providing accurate, real-time tracking of play, IGT *Tablelink* gives you an efficient method to manage all aspects of your table game operations.

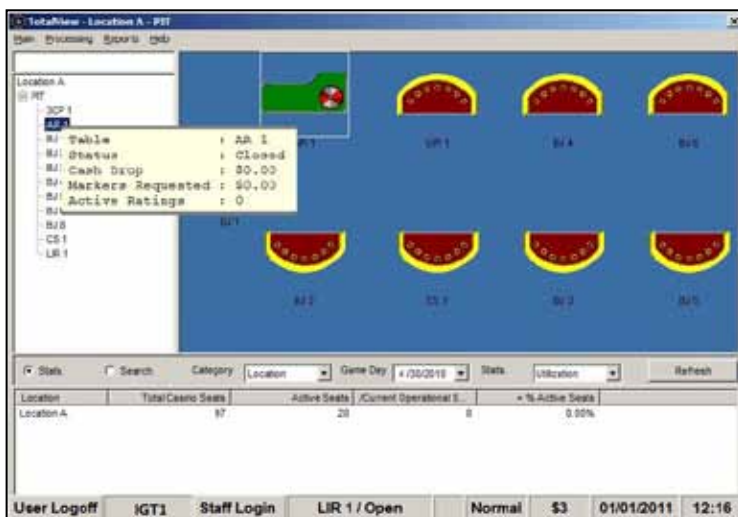

With multi-site, multi-language and multi-currency support, IGT *Tablelink* is a scalable solution that can be configured to meet your unique needs.

### BENEFITS

- Track players accurately and discreetly with minimal disruption
- Create ratings for refused names and identify players in real time
- Flexible bonus and complimentary point generation
- Automate standard table accounting procedures
- Process table transactions to the cage automatically
- Capture key data at its source at every table across your property or enterprise
- Monitor occupancy to spread the right games at the right times
- Evaluate staff performance

### FEATURES

- Detailed reporting on each player's buy-in/cash out position for both table and cage transactions
- Manage table games across the floor from the pit or back of house office workstations
- Run all your tables from one or more workstations per pit
- Connect to devices including electronic chip trays, chippers, shufflers and wheel readers
- Seamlessly integrated with Radio Frequency Identification (RFID) technology to increase table automation and accuracy
- Implement standalone or as a fully integrated component of the IGT *Casinolink*® system

Complete view of table games across the floor.

Capture rating details in real time with minimal disruption.

**The most widely used table management system in the world.**
